

In-person **Video Professional** **Certification Program**

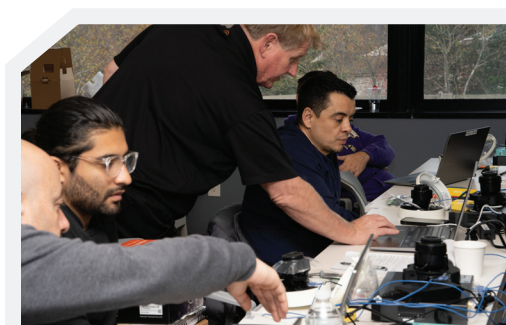

Accelerate your future

Get certified. Accelerate your future.

Hanwha Vision America is pleased to offer Video Professional Certification to its STEP Partners. Our certification program is a blended learning experience consisting of an in-classroom session and a final exam. The core curriculum is taught over a two-and-a-half-day session that facilitates interaction and hands-on instruction.

The program was developed for security industry design professionals and technical salespeople. Our curriculum will teach you the latest in network video surveillance technologies, increase your proficiency in Hanwha products and allows you to adopt best practices for installation and implementation of video surveillance solutions.

▲ Why Attend?

Learning and education are essential to any organization's success because it improves business results, operational efficiency and increases organizational competitiveness. The goal of our Video Certification Program is to increase the knowledge, understanding and expertise on Hanwha's IP video surveillance products and network technology for security industry design professionals and technical salespeople.

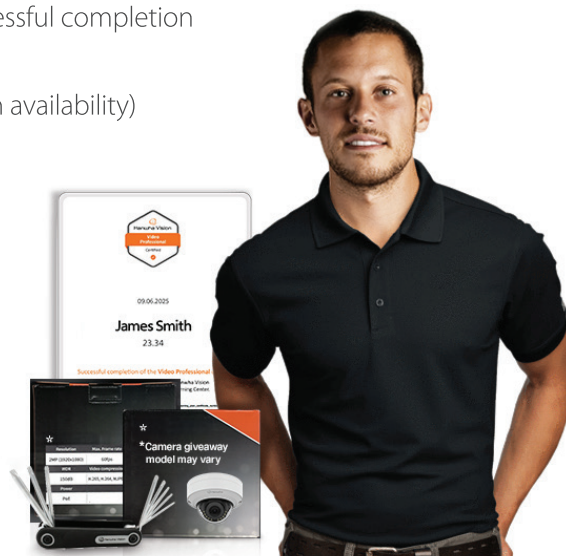

▲ Who should Attend?
